Sarveesh Kaarthic

SarveeshK

PROFESSIONAL SUMMARY

Results-oriented **Full Stack Developer** specializing in building scalable digital solutions. Expert in leveraging **Artificial Intelligence** to accelerate development cycles and optimize backend logic. Committed to continuous learning and applying modern web technologies to solve complex real-world challenges.

PROFESSIONAL EXPERIENCE

Python Development Intern

Infotact Solutions

01/2026 – Present Remote

- Executing rapid-prototyping sprints focused on advanced Python backend architecture and algorithmic optimization.
- Engineering technical solutions that improve code modularity and significantly reduce debugging time using AI-assisted workflows.

Web Developer Intern

Macs Solutions

12/2025 – 01/2026 Erode

- Architected and deployed "**Work Hub - CES**", a workflow system used by community members to manage daily operations.
- Reduced administrative task allocation time through the implementation of an automated role-based dashboard.
- Integrated AI-driven code assistants to accelerate feature delivery, completing the project ahead of schedule.

Full Stack with AI Intern

Nuvai AI Solutions

07/2025 Bengaluru

- Developed core modules for **Docky** (SaaS), optimizing frontend performance to handle simultaneous document uploads.
- Partnered with an agile team to integrate secure REST APIs, achieving high system stability during testing.

EDUCATION

BE (Electronics and Communication)

Government College of Engineering, Erode

08/2023 – 05/2027

CGPA: 7.98

Higher Secondary (HSC)

Jaycees Matriculation Hr. Sec. School

04/2022 – 03/2023

Percentage: 84.3%

Secondary School (SSLC)

Jaycees Matriculation Hr. Sec. School

04/2020 – 03/2021

Percentage: 100%

KEY STRENGTHS

- Team Leadership

Fostering collaboration and driving technical knowledge sharing.

- Learning Agility

Rapidly adapting to new technologies and evolving development environments.

ACHIEVEMENTS

- AI-Integrated Development

Successfully delivered full-stack projects integrated with advanced AI capabilities.

TOOLS & TECHNOLOGIES

Languages: Python, JavaScript, TypeScript, SQL

Frameworks: React.js, Flask

Tools: Git, GitHub, VS Code, Render, Vercel, Netlify

AI Tools: Cursor AI, Antigravity

AREAS OF INTEREST

- App Development

Building intuitive, user-centric web applications.

- AI Exploration

Investigating real-world use cases for Generative AI.

MINI PROJECTS

Work Hub - CES

Workflow management & Issue tracking system with RBAC for academic operations.

Docky SaaS

Secure document management system featuring user dashboards and cloud storage.
